PERFORMANCE STAGES

Venue Maker Pro™*

This is staging innovation from top to bottom. The Venue Maker Pro™* (VMP) includes features no one else offers: top-deck leveling, v-shape frame design for easy under stage access and the smallest storage footprint of any stage in its class. SICO® does it again!

**Patent Pending*

Efficient Storage

SICO® innovation extends beyond the stage, to include storage solutions too. All of our performance stages are designed for secure, compact, low-stress storage, because a great stage shouldn't have to take up a great amount of space.

CROWD CONTROL BARRIERS

Crowd Control Barriers

Simple to set-up and tear-down, our sturdy crowd control barriers are made out of welded steel tubing for maximum strength. Help protect performers and keep order when and where you need it with these portable, folding, free-standing crowd control barrier units.

Efficient Storage

SICO® innovation extends beyond the stage to include storage too. Crowd barriers are easy to set-up and fold down into a self-contained unit. Place folded units on the caddy and store or transport where needed. It's that simple.

STAGE ACCESSORIES

ADA Ramps

Our ADA-compliant ramps are made up of modular units that set up quickly and easily, and are adaptable to each of our various stages. All ramps are carpeted, include side guardrails and designed with a gradual incline of 1" per foot (2.54 cm/m) – for smooth, confident stage entrances and exits.

Articulating Steps

Articulating steps can be raised and lowered to enable use with a wide variety of stage heights. Steps attach to the top of a stage deck, which provides support for the steps. Available in carpet or black vinyl on the tread.

Modular Steps

Modular steps are fixed steps that are easy to operate and have a smaller storage footprint than articulating steps. Add extra step platforms to create the necessary height. Each platform rolls and fastens into place with ease so performers can enter and exit the stage gracefully.

Drapes

SICO® Drapes add a first-class finishing touch to your staging, secured by continuous hook and loop fastener strips that make it extra-easy to attach the skirting. Our draperies are made of attractive, flame-retardant fabric that retains its beauty over years of use.

STAGE ACCESSORIES

Enclosure Panels

Use enclosure panels to create a finished look to a stage while adding safety for your performers.

Guardrails & Covers

Safety is always your first priority and SICO® is here to help. Guardrails must be used with all of our stages and risers and we have options to fit all of our systems. We even include rail covers in multiple color selections to fit your staging décor.

Chair & Table Stops

These rugged stops help optimize safety by ensuring tables and chairs won't slide off the stage. Made from steel bars and available in multiple lengths, they attach quickly and rest one-half inch above the surface of the stage deck.

Backdrops

Our solid backdrops create a professional look and help focus the audience's attention on the performers, not on what's happening backstage.

Accessory Caddies

Our creatively designed caddies provide crucial convenience for time-strapped staff. They enable compact storage and fast transport of accessory units to any location, for a smooth set-up before showtime.
