* Not Available on Economy Model

FEATURES & BENEFITS

Mattress

Sleeping Comfort:

A conventional mattress and foundation* ensures sleeping comfort is never compromised.

Adjustable Straps with

Fasteners: Pillow Straps* are strategically positioned to hold pillow, bedding and mattress in place during transport and storage. The strap is fastened safely out of sight under the bed when the bed is readied for use. The bedding is held to the frame by a separate figure-eight strap, which allows bedding to be tucked in on all sides of the mattress.

Fire Retardant Ticking: Used on both the foundation and the mattress. Sleep soundly knowing SICO® meets the stringent California fire-retardant standards.

Optional SICO® CHEMSAFE

Mattress: An ideal option for hospitals and features a spill- and stain-repellant vinyl mattress and foundation ticking.

Vinyl Storage Bed Cover:

Optional protective covering from dust and damage.

Frame

Foundation*: The foundation is wrapped with an attractive black or port colored vinyl on its edges and back that matches the textured powder coat finish on the frame. The vinyl wrap on the foundation makes it very easy to keep clean and adds to the life of the Sleeper.

Bunkie Board: *(Only on Economy Model)* Canadian spruce frame with a cardboard topper makes for a strong mattress surface at only 1.5" (4cm) thickness.

Durable Frame: An extra tough, scratch resistant powder coat finish applied to 14 gauge steel frame.

Leg/Handle: Assists in lowering the bed into the use position.

Pivot Point: No rough edges, the rubber glides create an easy transition to lower for use or raise for transport.

No Moving Parts: No hinges to catch sheets or pinch fingers. You don't have to worry about maintenance.

Durable Laminate Headboard:

Keeps pillows from falling off bed. Armor-Edge® around perimeter for added protection in transport.

Mobility

Easy Transport: Housekeepers around the world find SICO® Mobile Sleepers easy to transport, as the light weight design allows them to roll quietly through hallways on casters. All beds, except the Twin XL, conveniently fit through standard doorways while in the vertical position.

Casters: Four 3" (8cm) swivel casters allows the bed to be easily rolled to wherever it is needed.

Thread Guard: Plastic thread guards prevent the accumulation of debris keeping wheel rotating freely and smoothly.

Warranty

5-Year Warranty on frame, headboard and casters. Lifetime Warranty on all welds. Visit www.sicoinc.com for all warranty details.

Serial Number: Bed frames are permanently marked for easy identification.

Space Design

Take advantage of our FREE space design service to determine the optimal layout and number of products for your space.
