Attachment Methods

METHOD I: SNAP CLIP
Snap clips fasten into steel snaps that are permanently attached to the skirt header. Clips remain attached to the skirt when taken off the table but are easily removed for laundering.

METHOD II: SNUGTIGHT™ CLIP
Snugtight clips have a hook-side tab on the face and attach directly to the table over the table topper or tablecloth. The skirting header is lined with a color-coordinated loop-side strip so it attaches easily to the clips.

METHOD III: HOOK & LOOP ONLY
Loop-side strip is sewn onto the skirting header for easy attachment to hook-side tape which is attached to table or stage edges. Hook and Loop Only option does not include clips.

METHOD IV: PLAIN BACKING
Skirting is sewn with plain, reinforced backing for easy pinning to table toppers or tablecloths.
